Card 2: The Judge

Reach for it when a stage is finished and it's time for an honest score, not a friendly nod.

Say it like this

• "Here are the standards, agreed before you start: [three to five lines]. When you finish, grade yourself against them, honestly."

• "Evidence gets top marks. The opening fails the plain-words line. Fix the opening; leave the evidence alone."

Not this: "This isn't good enough." (It says *that* it failed, not *where*.)
