Card 4: The Detective

Reach for it when the answer is smooth but wrong, and you can't yet point to the sentence at fault.

Say it like this

• "Don't give me a new conclusion yet. Walk back through your steps and find the first one where the thinking went wrong."

• "The mistake is in step two, where you assumed costs stay flat. Keep step one. Rebuild from step two."

Not this: "Wrong. Try again."
