Card 11: The Compass

Reach for it when a session is ending and there will be a next time. A new chat starts with no memory of this one unless you save or paste the lesson.

Say it like this

• "Before we stop, write our note for next time in four lines: what worked, what failed, what to try first, what never to do."

• "New session. Read this note first, confirm you have it, then begin."

Not this: "Great session, thanks!" and closing the window.
