# Worksheet A1: Part I Forecast Tracker

*Companion to* Super Intelligence Will Make You Obsolete, *Part I Forecast Atlas*

Name: Date:

**How to use:** Each row is one chapter's most likely forecast (Tier 1) from the Part I Forecast Atlas. Once a quarter, note the signpost you are watching and mark the status: *on track*, *early*, *late* or *wrong*. Being wrong is information, not failure.

| Ch. | Most likely (Tier 1) | Signpost I am watching | Status and date |
|---|---|---|---|
| 1 | Language models continue absorbing adjacent capabilities because a single interface trained on human knowledge generalizes more cheaply than separate specialized systems. | | |
| 2 | Systems reach and pass skilled-human parity in most *bounded, verifiable* cognitive tasks before they match humans in open-ended, embodied, real-world competence. | | |
| 3 | Energy and grid capacity set the effective pace of frontier growth. | | |
| 4 | Assistance strips the clerical and monitoring layers from professional work first. | | |

What changed my mind this quarter:
