# Worksheet A10: Part X Forecast Tracker

*Companion to* Super Intelligence Will Make You Obsolete, *Part X Forecast Atlas*

Name: Date:

**How to use:** Each row is one chapter's most likely forecast (Tier 1) from the Part X Forecast Atlas. Once a quarter, note the signpost you are watching and mark the status: *on track*, *early*, *late* or *wrong*. Being wrong is information, not failure.

| Ch. | Most likely (Tier 1) | Signpost I am watching | Status and date |
|---|---|---|---|
| 37 | Embodied capability is governed everywhere by physical constraint, not capability headlines: actuator torque density, thermal ceilings, and battery chemistry set the real deployment envelope, and platforms ship with force and speed envelopes far below their theoretical maxima in inhabited spaces. | | |
| 38 | Performed limitation becomes standard, certified behavior for domestic and care platforms. | | |
| 39 | Machine authority is granted first and fullest in emergency and industrial arenas. | | |
| 40 | Deference is priced. | | |

What changed my mind this quarter:
